

EVEREST

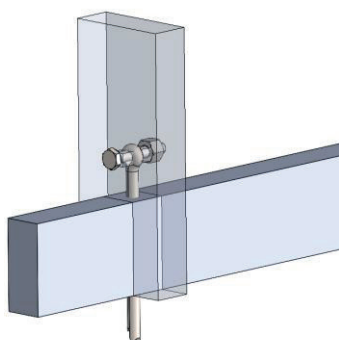

Ladder widening attachment

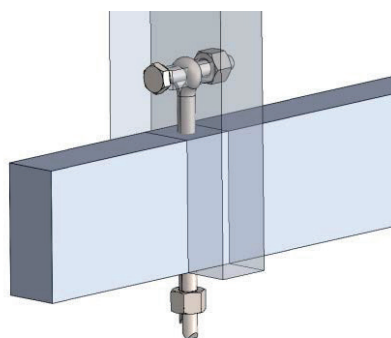

1. Insert the eye bolt as shown in the illustration.

2. Fit the ladder widening attachment onto the ladder as shown. Ensure that the eye bolt hole is aligned with the hole in the ladder side rail.

3. Insert the bolt through the ladder side rail and ensure that it passes through the eye bolt. Secure using a washer and nut.

4. Secure the eye bolt underneath the widening attachment using a washer and nut. Tighten the nut fully.
